**PROFI**, Feb 2017 – Mar 2021 (4 yrs, 2 mos), Russia, Moscow

#### Senior software engineer

- Collaborated with every internal team to create most of the product at its current state. This included the order flow, landing pages, ab tests, SEO optimizations, and marketing tools;
- Led the initiative to optimize development flow and reduce complexity. This required a unified design system with reusable components, a UI library, and reducing the tech debt. This resulted in a simplified workflow and faster feature development;
- Interviewed, onboarded, and mentored software engineers that were joining the team regularly.

**Madrobots.ru**, Dec 2014 – Feb 2017 (2 yrs, 2 mos), Russia, Moscow

#### Chief Product Officer

- Led the tech team to create a web retail store. As a part of the startup, I was involved in both product management and front-end development;
- As a product manager, I coordinated the team, analyzed the product KPIs, and managed the product roadmaps;
- As a lead front-end, I created the Madrobots.ru website, did code review, UI prototypes, and allocated the development team resources.

**Delivery Club | Food Panda**, Feb 2015 – Apr 2016, Russia, Moscow

**Frontend team leader**

- Legacy refactoring, development of the client side of the site, landing pages, integrations.
- Coordination of front team work, distribution of tasks, review, training for juniors.

**ADN Agency**, May 2012 – Nov 2014, Russia, Barnaul

**Senior frontend developer**

Project development, 60+ completed projects

**PUNK YOU**, Apr 2011 – May 2012, Russia, Barnaul

**Fullstack web developer**

Company site development

**Education:**

**Bachelor of Engineering (B.E.), Altai State Technological university, Computer Engineering**

Sep 2006 – Jul 2011, Russia, Barnaul

**3 steps of academic drawing and painting, School of drawing and painting**

Sep 2017 – May 2020, Russia, Moscow
